

Welcome Message

Welcome to the Squash PEI web site! A considerable amount of effort continues to be put into making this site a comprehensive resource for all who have an established interest in squash, or perhaps who are thinking about getting started in squash for the first time.

Practically everything you would want to know about squash on the Island, including our Association, tournament schedule, results, current rankings, on-line registration, squash facilities on the Island, and much more, can be found on this site. Of particular note is our blog, "Boasts & Lobs", with news, photos, conversation from around the island squash scene, and player's directory. Visit today....visit often!

On a more global scale, you will find links to national and international squash sites, containing all the squash news from around the globe. Enjoy!
